

4Site (<http://4siteinc.biz/>) is looking for qualified Surveyor Field Manager (Crew Chief) applicants for their Huntsville, Alabama office.

Job Location: Huntsville AL

Required experience: Survey Field Manager, 3 years

Compensation and Benefits: Competitive

Exempt/Non-Exempt: Non-Exempt

Employment Type: Full Time

Reports To: VP of Survey Operations

4Site is a Civil Engineering and Landscape Architecture firm headquartered in Huntsville Alabama, with a recent expansion to the Nashville, TN area. Their services include Civil Engineering, Land Planning, Landscape Architecture, and Surveying. The firm provides competitive pay and benefits, professional development training, and career advancement opportunities. The firm is an EEO Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, sexual orientation, national origin, age, disability or veteran status. The firm maintains a drug-free workplace.

Primary Responsibilities: The Survey Field Manager's primary duties include:

- Manage field work of survey crew performing land surveying.
- Local and regional travel required as needed to perform survey field work.
- Work with the Survey Team Members producing surveying CADD drawing and related project deliverables.
- Carry out project survey plans based on project specifications.
- Improve surveying processes and advance efficiencies.
- Perform research and analysis of land records, deeds, recorded plats, and survey data in order to make decisions concerning property lines.
- Provide technical assistance to others in order to resolve issues and/or to clarify survey data.
- Perform field data collection and staking as appropriate to the fulfillment of the requirements outlined in the contract documents.
- Work with survey crew personnel to ensure appropriate data are collected.

Qualifications and Education Requirements:

- Previous survey experience as a "Crew Chief" Preferred
- Experience with operation of robotic total stations and GPS survey equipment required
- Minimum 3 years experience or relevant training preferred
- Experience with ACAD and/or Civil3D a plus
- Must adhere to safety standards and take a proactive role in reducing safety risk.
- Must have valid driver's license and be able to operate a car or truck.
- Knowledge of multiple types of surveys including: ALTA, Boundary, and Topographic surveys, along with construction staking and GPS experience preferred
- Must be able to adapt and perform in a fast-paced environment
- Personal Protective Equipment (PPE): Due to the work environment and as a condition of employment, employees may be required to wear PPE in the performance of their duties.
